Creating the Future

Saventra supports public sector organisations to:

- Enable visions
- Improve services
- Expand on opportunity
- Achieve policy

e-Business Solutions for the Public Sector

"Oracle is pleased to support Saventra, our first Welsh Oracle Applications Partner. Saventra provides innovative thinking to deliver 'new way' business solutions"

**Martin Hayes,
Oracle - Wales**

Working in Partnership

Saventra is the first Oracle Applications Partner in Wales. We understand the local challenges within the economy, for business and the community. We believe in partnership, collaboration and sharing innovation to develop a "new way" of working to deliver service excellence.

Saventra has a reputation for consistently executing its commitments. We combine our passion for Wales with our credibility by supporting the Welsh agenda to improve the economy, drive efficiency and service quality for the betterment of its citizens

We support the execution of strategy through the service orientated architecture of our solutions. We are not constrained by technology, only by the ingenuity to apply it.

ORACLE PARTNER
